

International Society of Aeolian Research (ISAR)

Student travel grants to the International Conference on Aeolian Research (ICAR 2020) in Swakopmund, Namibia

We have the pleasure to invite senior undergraduate and postgraduate students to apply for the ISAR travel grants which are designed to encourage and support attendance at the ICAR 2020 in Swakopmund, Namibia (12 - 17th July 2020).

Applicants need to provide the following in their application:

- Summary CV of education and academic record
- Proof of postgraduate eligible status from their supervisor/tutor, lab head or institution
- Outline budget breakdown to show how the travel grant will be used (note that Visa costs and travel to obtain visa documents are not supported budget items)
- List of any additional funding that they might have secured.
- Travel grant will only be released after the necessary Visa has been obtained.
- Applicants are responsible for obtaining any Visas and/or travel documentation required
- Copy of the abstract submitted to the ICAR 2020 conference. Students who are not presenting research are also encouraged to apply however they will work part-time as volunteers at the conference.

Notes: The travel grant will only be released after the necessary Visa has been obtained. Applicants are responsible for obtaining any Visas and/or travel documentation required. Senior undergraduate students who do not plan to present their research are also encouraged to apply, however, they may be asked to contribute to conference organisation in some way during the conference.

Application Deadline: 28th of January 2020

Please send your application to Mike Hilton, Secretary, ISAR

e-mail: michael.hilton@otago.ac.nz

Please write "ICAR Student Travel Grant Application – [your name]" in the subject line.

Elsevier Aeolian Research Scholarship

We have the pleasure to invite students to apply for the new Elsevier Aeolian Research Scholarship which will be awarded at the ICAR 2020 in Swakopmund, Namibia; with research results to be announced at the ICAR 2022 in Los Cruces, New Mexico. The Scholarship is awarded for 2 years and aims to support the development of a research student with a track record of academic excellence and fund the attendance at the 2022 conference. It is a biennial award and payment will be made annually (1500 \$USD per annum).

Applicants need to have an ISAR membership and provide the following in their application

- a summary CV of education and academic record
- proof of their enrolment status from their supervisor/tutor, lab head or institution
- an outline of their budget to show how the funds will be used
- a cover letter (maximum 1000 words) stating why they are a suitable candidate and how they would benefit from the opportunity to undertake the research

- a list of any additional funding that they might have secured.

Please note: Visa costs and travel to obtain visa documents are not supported budget items.

Application Deadline: 28th of January 2020

Please send your application to Graziela Miot da Silva, Board Member, ISAR

e-mail: graziela.miotdasilva@flinders.edu.au

Please write "Elsevier Aeolian Scholarship Application – [your name]" in the subject line.
